**189.25 PLANNING APPLICATIONS**

From the applications currently listed on [www.colehill.gov.uk](http://www.colehill.gov.uk) no members of the public have requested that any are discussed. Members did review and discuss the following and comments were recorded as follows:

<b>PA NO</b>	<b>ADDRESS &amp; DEVELOPMENT PROPOSED</b>
P/FUL/2025/06295	10 Weston Road, Colehill, Dorset, BH21 2SF Proposal: Erect single storey rear extension & bin store, demolish existing garage and conservatory. Change of use of residential property (Use Class C3) to pharmacy (Use Class E).

	<p>COMMENT - Colehill Parish Council supports the continuity of Pharmacy services within Colehill but has some comments over the current application, those being:</p> <p>1 Dismay at losing a three bedrooned residential home in Colehill</p> <p>2 Concern over signage including fluorescent lights</p> <p>3 Concern over the suitability of a party wall between this property and the dwelling attached which obviously is residential.</p> <p>4 Members are unhappy about a petition to 'save the Pharmacy' being included at Appendix 5 being used to appear to show support for this particular application.</p> <p>5 Requesting a restriction on the use of this building in Class E (e) to ensure it remains solely a Pharmacy and not an automatic conversion to a different business with Class E</p> <p>6 Highway Safety and Parking Provision - The proposed development appears to provide insufficient on-site parking relative to its intended use, which may lead to overspill parking, based on adopted parking standards, on surrounding roads and compromise highway safety. This concern relates to Policy KS11 (Transport and Development) and Policy KS12 (Parking Provision) of the Christchurch &amp; East Dorset Local Plan, which require development to provide safe access and adequate parking in line with adopted standards. It also aligns with NPPF paragraph 111, which states that development should ensure safe and suitable access for all users. Impact on Local Character and Residential Amenity - Introducing a Class E use within a predominantly low-density residential area risks altering the established character and could lead to increased noise, traffic, and activity levels, contrary to Policy HE2 (Design of New Development), which seeks to protect local character and amenity. These principles were previously embedded in Policy DES8 (Residential Amenity) and remain relevant through HE2 and national guidance. We suggest access could be from Middlehill Road alleviating traffic entering Weston Road – this is of course subject to Dorset Council Highway agreement for vehicles and pedestrians to cross the grass verge/dropped kerb installation and Colehill Parish Council relocating their public bench.</p> <p>Additional clarification - Based on adopted parking and design standards, the Parish Council considers that the proposed use may intensify activity beyond what is typical for the area, potentially undermining the established residential character. This is also supported</p>

	by NPPF paragraph 130, which requires development to be sympathetic to local character and maintain a high standard of amenity for existing and future users.
