Authorised Push Payment (APP) Fraud

APP fraud happens when you are tricked by a criminal, into sending money by bank payment, to another account. You authorise the payment for this fraud. This is not the same as unauthorised fraud on your account, for example when someone accesses your account using a stolen card. APP fraud includes bank payments online and mobile banking, at your branch or by telephone banking.

Common types of APP fraud include:

- Purchase fraud, where criminals pretend to sell things that don't exist.
- Impersonation fraud, where criminals claim to be someone from a bank, the police or another trusted organisation to steal money.
- Investment fraud, where you are convinced to move your money into a fictitious fund or to pay for what later turns out to be a fake investment.
- Romance fraud, when criminals use a fake dating profile to start a relationship with you and then ask for money.
- Invoice fraud, where fraudsters send false invoices.

If you have lost money in an APP fraud, tell your bank as soon as you realise it has happened. Up to £85,000 of your money could be protected and reimbursed to you, however you will always need to show that you have been careful when making payments. You should follow any advice and warnings given by your bank. You won't be protected if you acted with a significant degree of carelessness, unless you are deemed to be vulnerable.

Other situations where you would not be covered include: payments sent overseas; civil disputes, e.g. if you've paid a genuine retailer or business but you aren't happy with their product or service.

If you have been affected by a scam, call the Citizens Advice consumer helpline on 0808 223 1133. All calls are then reported to Trading Standards.

Wimborne & Ferndown Neighbourhood Policing Team

Wimborne & Colehill Report

We are aware of concerns regarding shoplifting and Anti-Social Behaviour in the Wimborne & Colehill area. As a result three youths have been recently dealt with for several offences and are going through the Criminal Justice System as we speak.

We have been working closely with the Youth outreach services and have completed targeted patrols in Wimborne & Colehill. We have completed several engagements in the area and have listened to the local residents' concerns.

We have had an increase in theft of vehicles and theft from vehicles regionally over the past few months. As a result we have recently completed a Tool Marking Engagement. This was in conjunction with a local Home Watch where we offered advice on tool marking and showed demonstration products on security for both home and vehicles. If anyone would like advice, please do not hesitate to contact the team.

We have completed two Warrants whereby a quantity of drugs and weapons were seized and are looking at completing several more in the future. These warrants are as a result of the intelligence that we are getting from the local community and other intelligence we collate through other means. If anyone has any information or concerns re drug related activity please let us know.

We have recently seized two vehicles that were used in crime and have been working with Dorset Council Waste Department regarding fly tipping, where several other vehicles being used have been seized.

We have also assisted with Warrants involving Trading Standards and the Serious Organised Crime Unit.

You can find recent crime statistics on our website www.police.uk/pu/your-area/dorset-police/east-dorset-urban

If anyone has any questions or concerns, or you need to report a crime, please either contact your local Neighbourhood Policing Team, or 'Report...' online on the Dorset Police website www.dorset.police.uk or 999 in an emergency.
